

**CLH – MAY 2015
CLEAN UP WITH CROWN VERITY!**

Create your very own complete Outdoor Kitchen with a Crown Verity Professional Barbecue System and Hand Wash station...

Completely portable and requiring no plumbing or electric connections, the CV-EHS provides a simple answer to outdoor hygiene needs – of prime importance when raw meat is being handled.

Positioned alongside a Crown Verity BBQ, along with some stainless prep tables, chefs have everything they need to complete a lunch or dinner service – al fresco!

The CV-EHS provides more than 300 hand washes from a single tank – simply fill with hot water. A soap dispenser provides additional hygiene and anti bacterial soaps can be used if hot water access is limited. A paper towel dispenser is also included, making this a completely self contained Hand Wash station.

Please visit www.rhall.com or call the Sales Team on 01296 663400 for more information.
