Complete counter solutions

RH Hall's expertise goes beyond equipment supply... by working with one of our key exclusive supply partners, Simply Stainless, we now offer an online Kitchen Design Tool available at www.simplystainless.com.

As the sole distributor of the Simply Stainless range of tabling, sinks and shelving in the UK, we can advise on how to plan an effective layout for front or back of house needs, within the space available.

The initial design process can be started by a client online to get an idea of what can be achieved before seeking further advice from RH Hall. With this design package an outline layout can be drawn up to fit a client's kitchen dimensions and to suit their working requirements. It allows for the full specification of work units/frames to be included from the range of Simply Stainless' off the shelf modular stainless steel benches, then accessories can be added, such as chefs' drawers, door panels and under/over shelves.

RH Hall produce a fully costed out plan along with a delivery/installation schedule – and can offer very competitive finance packages too. Once finalised, the final kitchen is then available from RH Hall from stock and can be fitted by our team if required. Bespoke dimensions can be tailored by RH Hall's own Fabrications business within a turnaround time of generally within 7 days from the date of order.

In addition, by having our own Fabrications business, RH Hall can offer bespoke products from scratch, tailor making a solution to an individual client's needs. We can even build bespoke counters and cabinets around existing equipment, tailoring the fit to create a streamlined, seamless look and finish.

We can also offer bespoke and tailored solutions for any foodservice brand, concept, menu or operational need through our in-house Foodservice Solutions team.
