### 365 Soup-Server®

Available **exclusively from RH Hall**, 365 Soup is the world's first soup-server unit that serves 100% natural soup.

Formulated by nutritional experts, the nine different varieties are available in 2 litre packs and are all made from 100% natural ingredients, GM free with no artificial additives and a shelf life of 10 months, possible through the unique production process of 'cold fusion'. This unit is very easy to operate through touch screen menus, with the soup continually ready to serve from the integral 12 litre tank that will hold soups for a maximum of 12 hours. Operators can set the desired cup size serving between regular and large.

Food safety is paramount, and each of the ambient soup pouches carries unique bar codes containing batch information for tracking and tracing ingredients to ensure conformity to HACCP guidelines, invaluable when used in conjunction with 365 Soup-Server's® electronic reporting facility. The unit has its own self-clean facility built in and requires minimal maintenance. It's the ideal choice for many different foodservice environments.

**For more information or to discuss your individual requirements, contact RH Hall on 01296 663400 or visit [www.rhhall.com](http://www.rhhall.com).**
