

Maestrowave MW12 Microwave Oven

1200W Microwave – Unique Cavity Light!

Brand new for 2020, the Maestrowave MW12 is a reliable, durable and affordable option for smaller businesses needing high power in a compact machine – including Coffee Shops, Sandwich Bars, Cafés, Convenience Stores, Forecourts, Offices, Staff Rooms & many more commercial foodservice environments.

A higher powered version of the well established MW10, this machine has been designed exclusively for the commercial catering market with full commercial components and specification throughout.

The unique optimised Maestrowave microwave distribution system and cavity ensure perfect results every time! The MW12 offers amazing value for those on a tight budget, who want to ensure they are buying a fully commercial product and need that little boost of extra power to achieve their desired results!
