DELIVERY**  
Available across  
the range!

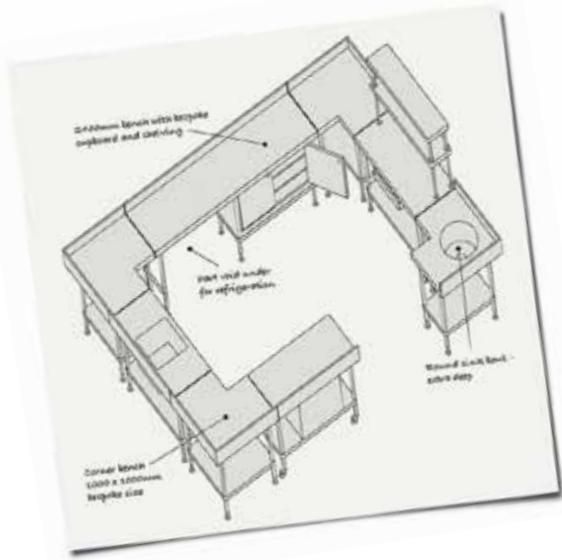

# Kitchen design made simple

## The off-the-shelf system that's stronger than welded!

Fully modular, easy to assemble & expandable with a huge range of accessories, the Simply Stainless range of Fabrications can create the perfect layout for any commercial kitchen. Everyday essential items such as Wall Benches, Centre Tables, Sinks, Racking & Wall Shelves are all available at market beating prices, with Next Day Delivery available across the range. The wide range of accessories - including Chef's Drawers, Undershelves, Leg Braces, Door Panels & more - allow for bespoke designs with the speed of 'off-the-shelf', Special doesn't have to mean 'special order'!

The high quality of the range is shown using the 'knock test' and 'stability test' - backed up with a top quality no. 4 finish and 1.2mm tops. Once assembled, the Simply Stainless system is even stronger than welded! This confidence is backed up by a Lifetime Warranty on every product in the range - an industry first for Fabrications.

 **SIMPLY  
STAINLESS®**

## Design your perfect kitchen

By combining the versatility of the Simply Stainless range with the capabilities of our 15,000 sq. ft. factory, we can help you create your dream kitchen - quickly, easily and affordably! With the help of our Factory Manager, we can utilise the wide range of Simply Stainless accessories to provide off-the-shelf solutions, with bespoke modifications provided by our factory wherever required. CAD & BIM drawings are available for every product in the Simply Stainless range, allowing you to visualise, plan and adapt as needed.
