

CATERING EQUIPMENT BUYER'S GUIDE 2018 CATERING INSIGHT/FOODSERVICE EQUIPMENT JOURNAL

We think it's fair to say that there isn't much we don't know about catering equipment. Our expertise comes from being in business for 40+ years. Today we are one of the largest foodservice equipment solutions suppliers in the UK and we strive to be the very best - a truly nationwide 'one stop' supplier.

In all we represent over 100 top brands and 10,000+ products, available on a free next day delivery service. You can rest assured that when you purchase from us you get premium brands and a premium service - but without the premium price! Plus, our nationwide network of R H Hall approved distributors ensure someone is nearby to offer you further sound advice, product demonstrations, immediate supply and reliable after sales service.

We are proud to work with some of the best brands in commercial catering equipment - we are the Sole UK & Eire Distributor for Sharp Professional Microwave Ovens - and have been for over 20 years! We hold Exclusive Distributor status for Maestrowave Catering Equipment, Smeg Foodservice Ovens, Simply Stainless Modular Fabrications and Crown Verity Professional Barbecue Systems – alongside world first industry innovations such as iWave® Foodservice Solutions and the New Covent Garden Soup Server.

We also work in partnership with a number of major food companies and suppliers to help us maintain our position at the forefront of innovation. Our Development Kitchen was created specifically for this reason. This 2,500 square foot facility offers a hands-on environment to develop new concepts and hosts many industry training events.

Our Foodservice Solutions and Innovations division provides bespoke, tailored equipment for any foodservice brand, concept or operational need. We can take standard 'off the shelf' products and make changes to suit any environment. Working together we can create bespoke solutions which include any number of creative options – from corporate branding, to automated cooking functions, to e-reporting systems - put simply, we can adapt any foodservice equipment to suit individual requirements.

With access to the most extensive range of equipment available on the market and our vast knowledge within this sector, we are ideally placed to offer this specialised service. Our dedicated Food Solutions team work from our state of the art development kitchen and work closely with chefs to create new menus, adapt recipes and find perfect timings for optimum results. Partnering this with our UK based Fabrications Division, we are able to take on even the biggest challenges - from concept, to design, to complete roll out.

So for all of your bespoke foodservice solutions needs, give us a call...Why not make our next big challenge one of yours!
