BUSINESS PARTNERS GUIDE - ADVERTORIAL COPY

RH HALL – MEETING TOMORROW’S DEMANDS... TODAY

Having been established 35 years in the industry, RH Hall has a vast and extensive knowledge of the market and of foodservice equipment. Our product range consists of over 10,000 items of equipment, from over 100 top foodservice brands and also includes new bespoke products from our own UK based Fabrications 15,000 sq ft manufacturing facility too.

Today we are the largest independent catering equipment supplier in the UK and one of the most innovative. Our breadth of knowledge stems from manufacturing right through to menu development and how to cook and use equipment to its best. We not only supply equipment, but consult and advise both customers and food companies on how to get the optimum results from their food, menus and equipment and we regularly work with development chefs in our state of the art 3,000 sq.ft. development kitchen.

We are continually developing the products and services we offer – whether it is a toaster or a complete solution, we can deliver exactly to our foodservice customers’ needs and even anticipate them in some cases – through our creative and dynamic Foodservice Solutions division, providing bespoke and tailored solutions for any foodservice brand, concept, menu or operational need. We frequently adapt standard foodservice equipment, tailoring it technically and cosmetically to suit a client’s needs via our own UK based fabrications factory. We can also create bespoke products from scratch - the ethos being: *‘If you can sketch it, we can make it!’*.

We are passionate about the industry and always at the forefront of the latest product and foodservice technologies. Our expert in-house sales divisions or our nationwide network of over 1,400 approved distributors, can impartially advise on the best solutions, whether off the shelf or bespoke, backed by our excellent customer services and after sales capabilities.

Cont’d...

We pride ourselves on understanding and anticipating the needs of our customers, providing foodservice solutions for tomorrow's needs... today.

RH Hall are sole UK distributors for Sharp, Smeg, Simply Stainless, Maestrowave, iWave® and Crown Verity, also accredited distributors of all other well known foodservice brands.
