Summer Specials

Summer Specials - promotional period
(11th July – 30th September)

The Maestrowave MC30L4B Induction Hob

As part of the R H Hall “Summer Specials” promotion the Maestrowave Induction Hob – Comes with Free Pan Set worth over £100!

Induction cooking is fast - a pan of water can be boiled in about 10 seconds - and because an induction hob uses significantly less power than a standard gas or electric hob it offers considerable savings in running. This type of cooking is becoming more popular, especially for front of house. Extremely simple and very safe to use, our counter top ‘plug and play’ model is built to withstand the demands of any busy catering operation. Featuring high quality German Schott

ceramic glass and electronic controls for greater cooking precision, this product is great value for money in comparison to others in their class. We plan to expand our range of Induction Hobs over the next 12 months – keep up to date by visiting www.maestrowave.com

Why Induction?

Induction hobs are environmentally friendly as they are 95% energy efficient. They produce no background heat as induction heats only the pan, resulting in a cool working environment with lower extraction costs. Since the glass hob surface retains only minimal heat reflected from the pan, cleaning is easy and quick.
