

BUYING BRITISH FEATURE CARE HOME CATERING – WINTER 2014

Buying British from one of the leading names in foodservice equipment provision offers numerous benefits to the care home caterer...

RH Hall's specialist Bespoke Foodservice Solutions division, which launched last year, to offer tailored fabrication solutions all manufactured from its UK factory is now forming a valuable part of their business.

Managing Director, Ray Hall, comments "Following on from the success of our exclusive partnership of supplying Simply Stainless 'off the shelf' fabrication systems to the industry and the acquisition of our own Fabrications business back in 2011, the new approach of combining these two specialist areas to create our Bespoke Solutions Division is proving incredibly popular. No other equipment supplier provides this kind of service – it's a market leading and unique offering in the UK.

The fabrication options available from the division are endless and have been recently enhanced by Simply Stainless expanding their product offering with new 2100mm products and a whole range of new accessories.

Considerable investment has been made within the 15,000 square foot factory to modernise the fabrications process with numerous new projects and products coming on stream as a result – both bespoke individual units and larger contract ones for national and group accounts, the public sector, kitchen design houses and catering distributors.

Behind the scenes is an in house CAD/CAM department that is available to design products from customer specification and the company has the facility to create cabinets and structures that will last the test of time.

The Bespoke Solutions Division works very closely with the RH Hall Fabrications business to be able to offer bespoke products from scratch. The ethos is *'If you can sketch it, we can make it!'*

Using British Steel and British components wherever feasible and possible we support and endorse British product and materials to ensure quality and consistence as well as for a fast turnaround and of course ticking the big green credentials with avoiding overseas transportation along with keeping the business revenues and spend along with factory workers employed totally within the UK!

Combine the highest standard of finish, competitive pricing and turnaround for large bespoke projects from built to delivery within 7 days – one of the best bespoke performances available on the market. No long waiting times for overseas deliveries. And you can visit our UK based factory to discuss your requirements first hand with the team.

We can also provide a full breakdown of every part and materials to where they are sourced and can certify as a truly British made product. We work to a certified ISO 9001 quality assurance and are also investors in people.

We are also government stamped as an approved and certified supplier to any Public sector organisations and buying groups. Being pre vetted and certified means we can supply without any red tape and on account terms plus exclusive buying terms.

About the Bespoke Solutions Division

The division provides a bespoke, design and planning service that brings even more creative, cost effective fabricated solutions to the market often working with key business partners to bring together 'total solutions' that marry together innovative food/menu items, with unique equipment with maximum operating efficiencies, such as with the iWave® and being part of RH Hall, customers can rest assured that with over 36 years' experience in the foodservice industry, RH Hall are the trusted foodservice equipment supplier of choice.

Online access 24/7 to search for all your 'off the shelf' equipment needs and the further benefit of a full team of professionals with manufacturing capability on hand and in the UK for designing and building bespoke tailor made requirements to suit every need.

Dedicated Foodservice Solutions Team & Development Kitchen

We are continually developing the products and services we offer – whether it is a toaster or a complete solution, we can deliver exactly to our foodservice customer needs and even anticipate them in some cases – through our creative and dynamic Foodservice Solutions division, providing bespoke and tailored solutions for any foodservice brand, concept, menu or operational requirements.

Having been established 36 years in the industry, RH Hall has a vast and extensive knowledge of the market and of foodservice equipment. Our breadth of knowledge stems from manufacturing and the technical aspects right through to menu development and how to cook and use equipment to its best. We not only supply products, we consult and advise both customers and food companies on how to get the optimum results from their food, menus and equipment and we regularly work with development chefs and catering managers in our state-of-the-art 3,000 sq ft Development Kitchen. Very importantly, we can back all this expertise up with a knowledgeable in-house sales team, a knowledgeable nationwide dealer network and excellent service and after sales capabilities.

SUPPORTING BRITISH BUSINESS AND MANUFACTURING – Quality assured.
