

## SHELVING, STORAGE & FABRICATION FEATURE CATERING INSIGHT – OCTOBER 2017

*Please attribute any comments to Ray Hall, Managing Director, R H Hall*

### ***What flexible shelving, tabling or storage options do you offer?***

Our Simply Stainless range of fully modular fabrication is available 'off the shelf', easy to assemble and infinitely expandable with a wide range of accessories available. Everyday essential items such as Centre Tables, Wall Benches, Sinks, Racking and Wall Shelves sit alongside unique products such as Infill Benches, Oven Stands, Ingredient Bins, Events Tables and more. Every product in the range is available for Next Day Delivery throughout the UK. We can also enhance this Next Day offering with a fully bespoke manufacturing service, working alongside our Fabrications division. This enables us to provide the very best of both worlds for any requirement.

### ***Are your products adjustable in any way? If so, how?***

Every model in the Simply Stainless range can be adapted and enhanced with a wide range of accessories. All accessories can easily be retro fitted to adapt to the needs of a changing menu. Options include chefs drawers, additional undershelves for storage, leg braces to create voids underneath tabling, Counter Conversion Kits and Door Panel Kits. These options allow for standard 'off the shelf' products to become bespoke, without creating additional lead times. Special doesn't have to mean special order!

### ***What questions do dealers ask you the most about flexible shelving, tabling or storage products?***

We are often asked about the quality and durability of Simply Stainless, as there can often be concerns with the quality of flatpack products. However, the Simply Stainless range has been designed to be stronger than any fully welded product, with its high quality demonstrated using the 'knock test' and 'stability test'. This is backed up by a Lifetime Warranty on every product in the range!

Another common question, particularly from our smaller dealers, is what design services we can offer? Our Bespoke Solutions team can help anyone create their dream kitchen – quickly, easily and affordably! We utilise the wide range of Simply Stainless products and accessories, with bespoke modifications provided by our Fabrications division wherever needed. CAD & BIM drawings are available for every product in the range, so we can help you visualise, plan and adapt! Simply Stainless also provide a Kitchen Designer tool on their website – [www.simplystainless.com](http://www.simplystainless.com) – allowing anyone to start to plan an initial kitchen layout and easily obtain a quotation.

### ***Do you liaise with any adjacent product manufacturers, ie. for undercounter refrigeration, displays, warewashers etc? If so, please detail***

Simply Stainless provide tested and approved solutions for many of the industries best selling products. Examples include Oven stands for both Rational and Blue Seal and Blue Seal Evolution infill benches. These can often be much more affordable than the options available directly from the manufacturer! In addition, many complementary products are available such as Microwave Shelves and Dishwash Inlet/Outlet Tables – all of which are designed to work in harmony with all leading brands. In fact, the flexibility of this Modular System means that we can work with almost any product!

***R H Hall are the Sole UK Importer/Distributor for the Simply Stainless range of Modular Fabrication and UK based manufacturers of bespoke fabrication.***
